## PROFILE SUMMARY

---

**Junior Full Stack Developer** with robust practical experience in developing and delivering **production-ready web and AI platforms** across frontend, backend, cloud, and DevOps domains. Experienced in owning features, contributing to system design, and executing deployments within fast-paced startup environments. Strong hands-on expertise in **React, Next.js, FastAPI, Django, PostgreSQL, Redis, Docker, AWS, and Firebase**. **Open to relocation** and seeking junior roles where I can contribute immediately while growing within international software engineering teams.

## Work Experience

---

### Kumari AI

Full stack Developer

Jun 2025 – Present

- Designed and delivered the infrastructure of the AI platform itself. This included the frontend environment, the backend environment, the data environment, and the cloud.
- Implemented scalable services with React, Next.js, FastAPI, REST APIs, WebSocket, Postgres, Redis and more stack for supporting AI-based workflows.
- Implemented automated CI/CD pipelines and containerized services using Docker to streamline builds and deployments.
- To guarantee production-ready delivery, I assumed responsibility for technical tasks and worked with others on architecture choices.

### Digital Sangalo pvt ltd

Full stack Developer

June 2024 – Nov 2024

- Developed client-side web applications with React, Node.js, Express.js, MongoDB.
- Worked directly with clients to convert their business requirements into functioning products.

## EDUCATION

---

### KL University

Bachelor of Technology in CS & IT

Vijayawada, Andhra Pradesh

November 2021 – May 2025

## PROJECTS

---

### Sunlight Tailors | React, Express, Node.js, MongoDB

Oct 2025 – Jan 2025

Project Link : [Sunlighttailors](#)

- Designed and developed a full-stack web application enabling a tailoring business to sell services online.
- Implemented a customer ordering workflow and an admin dashboard for managing orders, products, and customers.
- Supported the migration of business from offline to online, thereby expanding visibility and sales potential.

### KL Samarthya 2023 & 2024 | Python, Django, SQLite

Jan 2023 & Feb 2024

Project Link : [KL Samarthya 2024](#)

- Independently developed and deployed the KL University official fest website (consecutively for two years).
- Implemented authentication, listing of events, and online registrations. Handled heavy traffic during the registration periods.

### A One Cafe | React, Express, Node.js, MySQL

Mar 2025 – May 2025

Project Link : [Aonecafe](#)

- Developed and deployed a venue booking platform using React (Vite), Node.js, Express.js, MySQL.
- Digitized booking activities to cut down the need to manually coordinate

## SKILLS

---

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind
- **Backend:** FastAPI, Django, Node.js, Express.js, REST APIs
- **Databases:** PostgreSQL, MongoDB, MySQL, Redis
- **Cloud & DevOps:** Docker, AWS, Firebase, Github Actions CI/CD
- **Tools:** Git, GitHub, Jira, Agile/Scrum

## Certifications

---

- AWS Cloud Practitioner - AWS
- Microsoft Azure fundamentals – Microsoft
